

Road Safety

- Students tend to jay-walk across this stretch of Punggol Central between Block 195E and the opposite Block 601A. This act poses immediate dangers to them with an Overhead Pedestrian Crossing situated about 50m away. The pedestrians used the small 'break' in the fencing barriers along the road divider at this particular stretch to avoid using the proper overhead crossing.
- Students are reminded to use the overhead Pedestrian crossing.

PEDESTRIAN CROSSING
ALONG PUNGGOL CENTRAL
(OPP BLK 601A & 195E)
